

FOR IMMEDIATE RELEASE**PACIFIC COMBUSTION ENGINEERING TO REPRESENT
THREE NEW INDUSTRIAL EQUIPMENT MANUFACTURERS**

Fremont, California, December 19, 2017.....Pacific Combustion Engineering / Ponder Burner Company, a division of Nationwide Boiler Inc., has announced the representation of three additional industrial equipment manufacturers: Superior Boiler Works, Webster Combustion and E-Tech Heat Recovery Systems. These newly formed agreements give Pacific Combustion Engineering the exclusive rights to promote and sell all three brands to customers in the states of Washington, Oregon, and part of Idaho. Sales of E-Tech Heat Recovery Systems also include part of the state of Montana. This adds a breadth of products to the company's already extensive list of quality industrial equipment manufacturers that they represent.

Superior Boiler Works, with headquarters in Hutchinson, KS, manufactures Scotch Marine firetube boilers for process steam, hot water, and waste heat recovery with an emphasis on high quality and efficiency. In addition to boilers, the company fabricates a complete line of boiler-related auxiliary equipment. Superior Boiler has been in business since 1917 and has shipped over 20,000 boilers worldwide.

Webster Combustion, a Selas Heat Technology Company, manufactures efficient, cost-effective burners with advanced control technology and proven combustion performance. Webster burners utilize linkage or linkage-less controls by Autoflame, Siemens, Fireeye, Honeywell, and other reputable brands. With headquarters in Wichita, KS, the company has been providing burners for new and retrofit applications for nearly 100 years.

E-Tech Heat Recovery Systems has been providing customers with precise custom solutions since 1976. Products include box economizers, condensing economizers, circular economizers, Economite in-stack economizers, combustion air heaters, process heaters, thermal fluid heaters, heat recovery steam generators, waste heat boilers, and more. E-Tech Heat Recovery Solutions produce increased fuel efficiencies up to 95%, while reducing exhaust pollutants.

Pacific Combustion Engineering / Ponder Burner Company was acquired by Nationwide Boiler Inc. earlier this year. The company owns a cUL508A certified panel fabrication facility in Washougal, WA, manufacturing custom integrated combustion control systems, burner management systems, and NFPA fuel trains. The company represents more than two dozen reputable manufacturers of industrial process equipment and instrumentation. Visit their website at www.pce-pbc.com for more information.
