Nationwide Boiler Inc. has an immediate employment opportunity for a qualified Mechanic III who will be responsible for servicing and repairing boilers and auxiliary equipment at Nationwide Boiler's 25,000 sq. ft. fabrication facility, located in Fremont, CA.

Major Duties & Responsibilities

- Performs complex repairs and service on package firetube and watertube boilers and auxiliary equipment.
- Interprets and follows engineering drawings and blueprints in order to fabricate structural steel and piping systems.
- Fabricates boiler and auxiliary equipment structures, components and parts (duct work, skids, frames, brackets, piping, etc.) from engineering drawings/blueprints and/or from verbal instructions.
- Performs all levels of pipe-fitting which includes general layout, preparing bill of materials (BOMs) and simple sketches on both threaded and welded piping.
- Recommends the purchase of new materials needed to ensure projects are completed efficiently and within schedule.
- Displays good workmanship and safe working habits.
- Performs other related duties as assigned.

General Knowledge & Equipment Skills

- Knowledge of electrical and mechanical systems, valves, pumps, pipefitting, welding and fabrication with different materials in industrial operations.
- Ability to read and interpret engineering drawings/blueprints.
- Ability to communicate effectively with shop personnel.
- General knowledge of safety practices and procedures.
- Skill in using hand tools, power tools, forklifts, and over-head cranes.

Preferred Requirements

- High school diploma or equivalent.
- At least 2-4 years of previous experience in pipe-fitting, welding, or boiler maintenance and repair.

This position reports to Nationwide Boiler's Senior Mechanic and/or the Shop Superintendent and is located in Fremont, CA.
