Nationwide Boiler Inc. has immediate employment opportunities for qualified Field Service Technicians who will be responsible for performing start-up services, troubleshooting and repair activities on natural gas and light oil-fired industrial boilers in the field and at Nationwide Boiler's fabrication facilities located in California, Washington, and Texas. Typical duties include performance test firing, electrical work, start-ups and service calls on boilers, process burners, feedwater systems, water softeners and air pollution control equipment.

#### **Major Duties & Responsibilities**

- Utilizes test equipment, meters, and one's mechanical abilities to fire boilers, burners, and related equipment to ensure proper operation prior to and during installation.
- Performs independent start-up of boilers and related equipment.
- Assists Service team in conducting field service calls to perform start-ups, troubleshooting, or other service-related activities as needed.
- Performs basic electrical and mechanical repairs on boilers and auxiliary equipment.
- Communicates well to new and existing customers to determine the nature of boiler specific problems, provide equipment training, explain services and operations, and provide engineering support.
- Completes required field service reports which document work performed, nature of problems, hours worked, etc.
- Develops and maintains good customer relations and rapport. Looks for new sales opportunities and equipment improvements. Promotes Nationwide Boiler and its associates in a favorable way.
- Exhibits a commitment to provide exceptional customer service.
- Requires some overnight travel and overtime.

#### **General Knowledge & Equipment Skills**

- Knowledge of electrical and mechanical systems in industrial steam and power plant operations.
- Ability to communicate effectively with customers, vendors, contractors, sales personnel, and other shop and service employees.
- Familiarity using electrical and mechanical testing equipment.
- Ability to use hand and power tools, combustion analyzers, and welders.

**Entry level candidates are encouraged to apply!** 5 years of relevant work experience is helpful, as well as experience in any of the following fields of study:

- Facilities Engineering Technology
- Marine Engineering Technology
- Mechanical or Chemical Engineering

**Salary Range: \$25 - \$65 per hour**

Must possess a valid driver's license and have U.S. Citizenship. This position reports to Nationwide Boiler's Service Manager and employees will be based out of Fremont, CA, Washougal, WA or Alvin, TX.
