

FOR IMMEDIATE RELEASE**3,000 DAYS SAFETY MILESTONE ACHIEVED AT
NATIONWIDE BOILER INC.**

Fremont, California, April 23, 2013.....Nationwide Boiler Inc. continues to break the company's safety record and has recently achieved over 3,000 days without a lost time accident, as of April 19, 2013. This is the longest length of time Nationwide has gone without an accident in the company's over forty-five year history.

As a member of ISNetworld and PICS supplier pre-qualification systems, Nationwide Boiler's esteemed safety record is a valuable asset for bidding projects that require high standards in safety and compliance, prominently seen in projects including refineries, chemical processing plants and government facilities. Prospective customers can be assured that employees of Nationwide Boiler will comply with strict safety standards and that those standards will be followed while on a customer job site. In addition, Nationwide Boiler's Experience Modification Rate (EMR), a benchmark measure used for insurance premium discounts that compare worker compensation claims to other employers of similar size operating in the same type of business, continues to be reduced due to the company's record of zero lost time accidents.

Nationwide Boiler Incorporated, founded in 1967, provides industrial rental boilers and specializes in low emissions and high efficiency equipment including the CataStak™ SCR system and EconoStak economizers. The firm's national headquarters are in Fremont, California with sales and service agents located throughout the world. For more information visit the firm's website at www.nationwideboiler.com.
