

FOR IMMEDIATE RELEASE**ULTRA LOW NOX MOBILE BOILER ROOMS ADDED TO
EXPANDING RENTAL FLEET**

Fremont, California, September 26, 2012.....Three new ultra low NOx (ULN) mobile boiler rooms have been added to Nationwide Boiler Inc's growing fleet of rental boiler systems. The boilers have been specifically designed, manufactured and assembled to meet the increasing demand of steam for commercial and industrial boiler users located in California and other parts of the nation who must comply with strict air emission requirements. All three units have been pre-certified to comply with permitting agencies including the South Coast Air Quality Management District (SCAQMD) and the Bay Area Air Quality Management District (BAAQMD).

The three new units include a pair of 47.5 hp (200 psig) ULN boilers enclosed in 27' single axle vans and one 650 hp (250 psig) ULN boiler enclosed in a 53' van. All boilers include 9 ppm gas-fired burners (with the option to fire propane fuel), deaerators, feedwater pumps, chemical treatment systems, blowdown separators and sample cooler stations.

Nationwide Boiler offers a complete line of boiler related equipment for rental, short-term, seasonal, emergency use or for sale and turnkey plant projects. Nationwide Boiler is a stocking distributor for the world renowned Babcock & Wilcox FM package boiler. For more information, visit Nationwide Boiler's website at www.nationwideboiler.com.
