Nationwide Boiler Inc. has an immediate employment opportunity for a Mechanic I to perform routine maintenance and repair on boilers and related equipment at Nationwide Boiler's 25,000 sq. ft. fabrication facility, located in Fremont, CA.

Major Duties & Responsibilities:

- Performs routine inspection and maintenance on boilers and auxiliary equipment.
- Completes appropriate maintenance/repair forms and records.
- Performs threaded pipe-fitting work on boilers and auxiliary equipment.
- Remove and replace components on boilers and auxiliary equipment.
- Performs refractory removal and assists in the repair or installation of new refractory.
- Assists other mechanics or electricians as required.
- Keeps work area clean. Sweeps and puts shop tools back in their proper place.
- Performs routine maintenance and/or repair work on shop equipment.
- Performs other related duties as assigned.

General Knowledge & Skills

- Basic knowledge of boilers and/or related mechanical equipment.
- Basic skill in pipe-fitting preferred.
- Welding and fit-up skills preferred.
- Ability to perform routine maintenance.

Equipment Operated

- Ability to properly utilize basic hand tools and shop equipment.

Minimum tools required by employee:

- Basic mechanic hand tools, sockets, wrenches up to 1" in size.
- Set of pipe wrenches up to 24".
- Roll-away tool box.

Preferred Requirements (entry level encouraged to apply):

- High school diploma or equivalent.
- One (1) or two (2) years previous experience in pipefitting or boiler maintenance and repair, and/or mechanical equipment maintenance and repair.

Salary Range: \$20 - \$35 per hour

This position reports to Senior Mechanics and / or the Shop Superintendent, and is located in Fremont, CA. Must be flexible to work weekends as needed.
