

**FOR IMMEDIATE RELEASE**

**NEW EAST COAST REPRESENTATIVE SIGNED FOR  
NATIONWIDE BOILER INC.**

**Fremont, California, December 7, 2016.....**In a continued effort to expand their support network for customers throughout the United States, Nationwide Boiler Inc. has signed on Analytical & Combustion Systems as a new representative to cover Connecticut, Massachusetts, New Jersey, select counties in New York state and the five boroughs of New York City. This strategic alignment brings strong technical knowledge and support to the needs of customers in the East Coast region. Analytical & Combustion Systems' established presence in the area will provide Nationwide Boiler Inc. with a closer tie to the many facilities that require rental boilers and new boilers, and the expected growth of emissions reduction projects requiring Nationwide Boiler's exclusive CataStak™ SCR system.

Analytical & Combustion Systems was founded in 1989 as a Manufacturer's Representative Organization and Service Group. The company's primary focus is performance and technology improvements for medium to large commercial heating plants, industrial powerhouses, and utility powerhouses and cogeneration facilities. Capabilities include full system evaluation, equipment procurement, and installation supervision and startup. To learn more, visit [www.acs-ny.com](http://www.acs-ny.com).

Nationwide Boiler Inc. was founded in 1967 to provide new and used boiler systems to industrial and commercial steam users around the world for temporary, emergency, or permanent use. The company's products include trailer-mounted boilers, skid-mounted boilers, mobile boiler rooms, mobile steam plants, mobile feedwater systems, CataStak™ selective catalytic reduction systems and boiler auxiliaries. Nationwide Boiler also provides engineering, design and technical field support services. For more information, visit [www.nationwideboiler.com](http://www.nationwideboiler.com).
